MISTER LOU

Our newest pull-on model has been named "Mister Lou" after one of our owner's pups. He was owned by Peggy and happily spent the majority of his day hanging out in our CEO's office. If you were ever lucky enough to visit our factory, you would see Mister Lou happily keeping watch from the top of Roberta's desk! He was a sweet soul, watching anything & everything that was going on outside the office window.

Boot Rebuilding

Your well-worn Wesco boots can be brought back to life for up to 45% less than the price of a new pair, adding significant value to your boot investment. Once we receive the boots, we give them a thorough inspection. (We occasionally get a pair of boots that are beyond repair.) We then replace the heels, outsoles, midsoles, insoles, counters, shanks, vamps, laces, false tongues, and rotate the eyelets. Because the boots are re-lasted during the rebuild process, we can resize or make minor alterations to accommodate any changes in your feet.

Send worn boots directly to West Coast Shoe Company:
UPS or FedEx: 52828 NW Shoe Factory Ln., Scappoose OR 97056 USA
USPS: PO Box 607, Scappoose OR 97056-0607 USA

See the rebuilding process at wescoboots.com.

- We only rebuild Wesco boots. Occasionally, we get a pair of boots that are simply past the point of rebuilding.
- Due to the ASTM EH standards our VolfFoe boots must meet, we are unable to rebuild or repair the boots under this standard. VoltFoe boots sent in for rebuilding can only be rebuilt to a Highliner or Jobmaster style without the ASTM EH standard.
- Due to the construction of the JH Classics, Robert William and Romeo, they are limited to outsole replacement only.
